Author Index, Vols. 63–65

Adams, J.B. and G.C. Bate
Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation . . . . . (64) (1999) 359
Afreen-Zobayed, F., *see* Armstrong, J. . . . . (64) (1999) 275
Agawin, N.S.R., *see* Terrados, J. . . . . (63) (1999) 203
Agawin, N.S.R., *see* Terrados, J. . . . . (65) (1999) 123
Agawin, N.S.R., *see* Terrados, J. . . . . (65) (1999) 175
Aladro-Lubel, M.A. and M.E. Martínez-Murillo
Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico . . . . . (65) (1999) 239
Appenroth, M.
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* . . . . . (64) (1999) 19
Appenroth, M.
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* . . . . . (64) (1999) 19
Armstrong, J., F. Afreen-Zobayed, S. Blyth and W. Armstrong
Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots . . . . . (64) (1999) 275
Armstrong, W., *see* Armstrong, J. . . . . (64) (1999) 275
Astorga, V., *see* Lissner, J. . . . . (64) (1999) 317
Astorga, V., *see* Lissner, J. . . . . (64) (1999) 335
Auger, M., *see* Hofstra, D.E. . . . . (63) (1999) 305
Bate, G.C., *see* Adams, J.B. . . . . (64) (1999) 359
Benjamin, K.J., D.I. Walker, A.J. McComb and J. Kuo
Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity . . . . . (64) (1999) 1
Björk, M., *see* Hellblom, F. . . . . (65) (1999) 97
Blasco, F.v., *see* Dodd, R.S. . . . . (63) (1999) 291
Blom, C.W., *see* Lenssen, J.P. . . . . (64) (1999) 151
Blyth, S., *see* Armstrong, J. . . . . (64) (1999) 275
Bobbink, R., *see* Lucassen, E.C. . . . . (64) (1999) 95
Bonifacio, R.S., *see* Montaño, M. Nemesio E. . . . . (65) (1999) 321
Borum, J., *see* Terrados, J. . . . . (63) (1999) 203
Borum, J., *see* Terrados, J. . . . . (65) (1999) 123
Borum, J., *see* Terrados, J. . . . . (65) (1999) 175
Brandrud, T.E., *see* Lucassen, E.C. . . . . (64) (1999) 95
Brix, H.
Genetic diversity, ecophysiology and growth dynamics of reed (*Phragmites australis*) (64) (1999) 179
Brix, H., *see* Čížková, H. . . . . (64) (1999) 303
Brix, H., *see* Grünfeld, S. . . . . (64) (1999) 63

PII: S0304-3770(99)00088-1

Brix, H., *see* Mendelssohn, I.A. . . . . (64) (1999) 381
Brix, H., *see* Romero, J.A. . . . . (64) (1999) 369
Bunn, S.E., *see* Mosisch, T.D. . . . . (64) (1999) 167
Carruthers, T.J.B. and D.I. Walker
Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason . . . . . (65) (1999) 281
Čížková, H., *see* Klimeš, L. . . . . (64) (1999) 105
Čížková, H., H. Brix, J. Kopecký and J. Lukavská
Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations . . . . . (64) (1999) 303
Chambers, R.M., L.A. Meyerson and K. Saltonstall
Expansion of *Phragmites australis* into tidal wetlands of North America. . . . . (64) (1999) 261
Chiscano, C.L., *see* Duarte, C.M. . . . . (65) (1999) 159
Claveri, B., *see* Mouvet, C. . . . . (63) (1999) 1
Clayton, J., *see* Hofstra, D.E. . . . . (63) (1999) 305
Clevering, O.A.
The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats . . . . . (64) (1999) 35
Clevering, O.A. and J. Lissner
Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* . . . . . (64) (1999) 185
Clevering, O.A., *see* Paucă-Comănescu, M. . . . . (64) (1999) 223
Colmer, T.D., *see* Connell, E.L. . . . . (63) (1999) 219
Comín, F.A., *see* Lissner, J. . . . . (64) (1999) 317
Comín, F.A., *see* Lissner, J. . . . . (64) (1999) 335
Comín, F.A., *see* Romero, J.A. . . . . (64) (1999) 369
Connell, E.L., T.D. Colmer and D.I. Walker
Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination . . . . . (63) (1999) 219
Coops, H., *see* Hanganu, J. . . . . (64) (1999) 351
Creed, J.C.
Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil . . . . . (65) (1999) 47
Davies, P.M., *see* Mosisch, T.D. . . . . (64) (1999) 167
Dennison, W.C., *see* Longstaff, B.J. . . . . (65) (1999) 105
Dodd, R.S., F.v. Blasco, Z.A. Rafii and E. Torquebiau
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme . . . . . (63) (1999) 291
Duarte, C.M. and C.L. Chiscano
Seagrass biomass and production: a reassessment . . . . . (65) (1999) 159
Duarte, C.M. and M.D. Fortes
Foreword . . . . . (65) (1999) 5
Duarte, C.M.
Seagrass ecology at the turn of the millennium: challenges for the new century . . . (65) (1999) 7
Duarte, C.M., *see* Gacia, E. . . . . (65) (1999) 255
Duarte, C.M., *see* Terrados, J. . . . . (63) (1999) 203
Duarte, C.M., *see* Terrados, J. . . . . (65) (1999) 123
Duarte, C.M., *see* Terrados, J. . . . . (65) (1999) 175
Eckersley, J., *see* Kendrick, G.A. . . . . (65) (1999) 293
Elster, C. and L. Perdomo
Rooting and vegetative propagation in *Laguncularia racemosa* . . . . . (63) (1999) 83
Erftemeijer, P.L.A., *see* Ochieng, C.A. . . . . (65) (1999) 221
Erftemeijer, P.L.A. and J. Stapel
Primary production of deep-water *Halophila ovalis* meadows . . . . . (65) (1999) 71

Fortes, M.D., *see* Duarte, C.M. . . . . (65) (1999) 5
Fortes, M.D., *see* Terrados, J. . . . . (63) (1999) 203
Fortes, M.D., *see* Terrados, J. . . . . (65) (1999) 123
Fortes, M.D., *see* Terrados, J. . . . . (65) (1999) 175
Frost-Christensen, H., *see* Sand-Jensen, K. . . . . (63) (1999) 23
Gacia, E., *see* Terrados, J. . . . . (65) (1999) 175
Gacia, E., T.C. Granata and C.M. Duarte
An approach to measurement of particle flux and sediment retention within seagrass (*Posidonia oceanica*) meadows . . . . . (65) (1999) 255
Grünfeld, S. and H. Brix
Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* . . . . . (64) (1999) 63
Granata, T.C., *see* Gacia, E. . . . . (65) (1999) 255
Green, J.D., *see* Hofstra, D.E. . . . . (63) (1999) 305
Greve, T., *see* Terrados, J. . . . . (65) (1999) 175
Gridin, M., *see* Paucă-Comănescu, M. . . . . (64) (1999) 223
Hanganu, J., *see* Paucă-Comănescu, M. . . . . (64) (1999) 223
Hanganu, J., G. Mihail and H. Coops
Responses of ecotypes of *Phragmites australis* to increased seawater influence: a field study in the Danube Delta, Romania. . . . . (64) (1999) 351
Hartzendorf, T., *see* Rolletschek, H. . . . . (64) (1999) 291
Harwell, M.C. and R.J. Orth
Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration . . . . . (64) (1999) 51
Hauber, D.P., *see* Pellegrin, D. . . . . (63) (1999) 241
Hellblom, F. and M. Björk
Photosynthetic responses in *Zostera marina* to decreasing salinity, inorganic carbon content and osmolality . . . . . (65) (1999) 97
Hemminga, M.A., N. Marbà and J. Stapel
Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems (65) (1999) 141
Hishamuddin, O., *see* Zakaria, M.H. . . . . (65) (1999) 199
Hofstra, D.E., J. Clayton, J.D. Green and M. Auger
Competitive performance of *Hydrilla verticillata* in New Zealand . . . . . (63) (1999) 305
Howe, M.J., *see* Wetzel, R.G. . . . . (64) (1999) 111
Ibarra-Obando, S.E., *see* Meling-López, A.E. . . . . (65) (1999) 59
Japar Sidik, B., Z. Muta Harah, A. Mohd. Pauzi and S. Madhavan
Halodule species from Malaysia — distribution and morphological variation. . . . . (65) (1999) 33
Kühl, H., *see* Rolletschek, H. . . . . (64) (1999) 247
Kühl, H., H. Koppitz, H. Rolletschek and J.G. Kohl
Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description. . . . . (64) (1999) 235
Kamp-Nielsen, L., *see* Terrados, J. . . . . (63) (1999) 203
Kamp-Nielsen, L., *see* Terrados, J. . . . . (65) (1999) 123
Kamp-Nielsen, L., *see* Terrados, J. . . . . (65) (1999) 175
Kendrick, G.A., J. Eckersley and D.I. Walker
Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia . . . . . (65) (1999) 293
Kenworthy, W.J., *see* Terrados, J. . . . . (63) (1999) 203
Klimeš, L., J. Klimešová and H. Čížková
Carbohydrate storage in rhizomes of *Phragmites australis*: the effects of altitude and rhizome age . . . . . (64) (1999) 105
Klimešová, J., *see* Klimeš, L. . . . . (64) (1999) 105

Koch, E.W.
Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* Banks ex König seedlings . . . . . (63) (1999) 95
Koch, E.W.
Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed . . . (65) (1999) 269
Kohl, J.G., *see* Kühl, H. . . . . (64) (1999) 235
Kohl, J.G., *see* Rolletschek, H. . . . . (64) (1999) 247
Kohl, J.G., *see* Rolletschek, H. . . . . (64) (1999) 291
Kopecký, J., *see* Čížková, H. . . . . (64) (1999) 303
Kopecky, J., *see* Xiong, F. . . . . (63) (1999) 37
Koppitz, H.
Analysis of genetic diversity among selected populations of *Phragmites australis* world- wide . . . . . (64) (1999) 209
Koppitz, H., *see* Kühl, H. . . . . (64) (1999) 235
Kuo, J., *see* Benjamin[a], K.J. . . . . (64) (1999) 1
Lacap, D., *see* Terrados, J. . . . . (65) (1999) 175
Lenssen, J.P., F.B. Menting, W.H. vanderPutten and C.W. Blom
Effects of sediment type and water level on biomass production of wetland plant species . . . . . (64) (1999) 151
Lissner, J., *see* Clevering, O.A. . . . . (64) (1999) 185
Lissner, J., H.H. Schierup, F.A. Comín and V. Astorga
Effect of climate on the salt tolerance of two *Phragmites australis* populations. I. Growth, inorganic solutes, nitrogen relations and osmoregulation . . . . . (64) (1999) 317
Lissner, J., H.H. Schierup, F.A. Comín and V. Astorga
Effect of climate on the salt tolerance of two *Phragmites australis* populations. II. Diurnal CO2 exchange and transpiration . . . . . (64) (1999) 335
Longstaff, B.J. and W.C. Dennison
Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* . . . . . (65) (1999) 105
Lorenzen, B., *see* Mendelssohn, I.A. . . . . (64) (1999) 381
Lubanski, M., *see* Terrados, J. . . . . (65) (1999) 175
Lucassen, E.C., R. Bobbink, M.M. Oonk, T.E. Brandrud and J.G. Roelofs
The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment . . . . . (64) (1999) 95
Lukavská, J., *see* Čížková, H. . . . . (64) (1999) 303
Madhavan, S., *see* Japar Sidik, B. . . . . (65) (1999) 33
Maltby, E., *see* Mendelssohn, I.A. . . . . (64) (1999) 381
Marbà, N., *see* Hemminga, M.A. . . . . (65) (1999) 141
Marshall, C.J., *see* Mosisch, T.D. . . . . (64) (1999) 167
Martínez-Murillo, M.E., *see* Aladro-Lubel, M.A. . . . . (65) (1999) 239
McComb, A.J., *see* Benjamin[a], K.J. . . . . (64) (1999) 1
Meling-López, A.E. and S.E. Ibarra-Obando
Annual life cycles of two *Zostera marina* L. populations in the Gulf of California: contrasts in seasonality and reproductive effort. . . . . (65) (1999) 59
Mendelssohn, I.A., B.K. Sorrell, H. Brix, H.H. Schierup, B. Lorenzen and E. Maltby
Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark. . . . . (64) (1999) 381
Menting, F.B., *see* Lenssen, J.P. . . . . (64) (1999) 151
Meyerson, L.A., *see* Chambers, R.M. . . . . (64) (1999) 261
Mihail, G., *see* Hanganu, J. . . . . (64) (1999) 351
Milchakova, N.A.
On the status of seagrass communities in the Black Sea . . . . . (65) (1999) 21
Mohd. Pauzi, A., *see* Japar Sidik, B. . . . . (65) (1999) 33

Montaño, M. Nemesio E., R.S. Bonifacio and R.G.O. Rumbaoa
Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds (65) (1999) 321
Mosisch, T.D., S.E. Bunn, P.M. Davies and C.J. Marshall
Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream . . . (64) (1999) 167
Mouvet, C. and B. Claveri
Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction . . . (63) (1999) 1
Muta Harah, Z., *see* Japar Sidik, B. . . . (65) (1999) 33
Neckles, H.A., *see* Short, F.T. . . . (63) (1998) 169
Nedbal, L., *see* Xiong, F. . . . (63) (1999) 37
Nielsen, S.L., I. Thingstrup and C. Wigand
Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König . . . (63) (1999) 261
Ochieng, C.A. and P.L.A. Erftemeijer
Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment . . . (65) (1999) 221
Olesen, B.
Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning . . . (65) (1999) 209
Oonk, M.M., *see* Lucassen, E.C. . . . (64) (1999) 95
Orth, R.J., *see* Harwell, M.C. . . . (64) (1999) 51
Pasqualini, V., C. Pergent-Martini and G. Pergent
Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing . . . (65) (1999) 311
Paucã-Comãnescu, M., O.A. Clevering, J. Hanganu and M. Gridin
Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania . . . (64) (1999) 223
Pellegrin, D. and D.P. Hauber
Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel . . . (63) (1999) 241
Perdomo, L., *see* Elster, C. . . . (63) (1999) 83
Pergent, G., *see* Pasqualini, V. . . . (65) (1999) 311
Pergent-Martini, C., *see* Pasqualini, V. . . . (65) (1999) 311
Rafii, Z.A., *see* Dodd, R.S. . . . (63) (1999) 291
Ralph, P.J.
Photosynthetic response of *Halophila ovalis* (R. Br.) Hook. *f.* to combined environmental stress . . . (65) (1999) 83
Roelofs, J.G., *see* Lucassen, E.C. . . . (64) (1999) 95
Rolletschek, A., *see* Rolletschek, H. . . . (64) (1999) 247
Rolletschek, A., *see* Rolletschek, H. . . . (64) (1999) 291
Rolletschek, H., *see* Kühl, H. . . . (64) (1999) 235
Rolletschek, H., A. Rolletschek, H. Kühl and J.G. Kohl
Clone specific differences in a *Phragmites australis* stand II. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation . . . (64) (1999) 247
Rolletschek, H., T. Hartzendorf, A. Rolletschek and J.G. Kohl
Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism . . . (64) (1999) 291
Romero, J.A., H. Brix and F.A. Comín
Interactive effects of N and P on growth, nutrient allocation and NH4 uptake kinetics by *Phragmites australis* . . . (64) (1999) 369
Rumbaoa, R.G.O., *see* Montaño, M. Nemesio E. . . . (65) (1999) 321
Saltonstall, K., *see* Chambers, R.M. . . . (64) (1999) 261

Sand-Jensen, K. and H. Frost-Christensen
Plant growth and photosynthesis in the transition zone between land and stream . . (63) (1999) 23
Schierup, H.H., *see* Lissner, J. . . . . (64) (1999) 317
Schierup, H.H., *see* Lissner, J. . . . . (64) (1999) 335

Subject Index, Vols. 63–65

Above-ground/below-ground biomass ratio

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Above- and below-ground biomass

Seagrass biomass and production: a reassessment 65 (1999) 159

Above- and below-ground production

Seagrass biomass and production: a reassessment 65 (1999) 159

Aboveground biomass

Responses of ecotypes of *Phragmites australis* to increased seawater influence: a field study in the Danube Delta, Romania 64 (1999) 351

Abscission

Response of six *Azolla* species to transient high-temperature stress 64 (1999) 87

Acclimation

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Accumulation

Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction 63 (1999) 1

Acetic acid

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Adaptation

Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291

The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats 64 (1999) 35

Aerenchyma

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Aerenchyma

Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219

Aerial photography

Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311

Algae

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

The occurrence of UV-B absorbing mycosporine-like amino acids in freshwater and terrestrial microalgae (Chlorophyta) 63 (1999) 37

Ammonium

The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment 64 (1999) 95

Amphibious plants

Plant growth and photosynthesis in the transition zone between land and stream 63 (1999) 23

Amphibolis griffithii

Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293

Amphipods

Mobile epifauna inhabiting the invasive *Sargassum muticum* and two local seaweeds in northern Spain 64 (1999) 131

Anaerobic conditions

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Anaerobic

Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219

Aquarium plants

In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197

PII: S0304-3770(99)00089-3

Aquatic bryophyte
Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction 63 (1999) 1
Aquatic ecosystem
The occurrence of UV-B absorbing mycosporine-like amino acids in freshwater and terrestrial microalgae (Chlorophyta) 63 (1999) 37
Aquatic plants
Photosynthesis and stomatal conductance of *Juncus effusus* in a temperate wetland ecosystem 63 (1999) 127
Arabian Gulf
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291
Araceae
In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197
Archanara geminipuncta
Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399
Ash content
Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317
Assimilation type
Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247
Australia
Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293
Avicennia marina
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291
Azolla
Response of six *Azolla* species to transient high-temperature stress 64 (1999) 87
Beach cast
Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221
Benthic microalgae
The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11
Bibliometry
Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7
Biological weed control
Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399
Biomass allocation
Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning 65 (1999) 209
Biomass
Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291
Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47
Black Sea
On the status of seagrass communities in the Black Sea 65 (1999) 21
Brackish marsh
Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261
Brazil
Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47
Caloric value
Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds 65 (1999) 321
Carbon dioxide
The effects of global climate change on seagrasses 63 (1999) 169
The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment 64 (1999) 95
Cell structure
Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1
Ceratophyllum demersum
Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305
CH_4 oxidation
Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* 64 (1999) 63

Chemical extraction
Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction 63 (1999) 1
Chesapeake Bay
A rapid and simple method for transplanting eelgrass using single, unanchored shoots 64 (1999) 77
Chesapeake Bay
Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration 64 (1999) 51
Chlorophyll *a* fluorescence
Photosynthetic response of *Halophila ovalis* (R. Br.) Hook. *f.* to combined environmental stress 65 (1999) 83
Chlorophyll *a*
Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167
Climate
The effects of global climate change on seagrasses 63 (1999) 169
Clonal distribution
Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209
Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description 64 (1999) 235
Clonal growth
The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats 64 (1999) 35
Clonal variation
Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241
CO_2 affinity
Plant growth and photosynthesis in the transition zone between land and stream 63 (1999) 23
Combined stress
Photosynthetic response of *Halophila ovalis* (R. Br.) Hook. *f.* to combined environmental stress 65 (1999) 83
Common reed
Carbohydrate storage in rhizomes of *Phragmites australis*: the effects of altitude and rhizome age 64 (1999) 105
Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261
Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359
Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241
Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* 64 (1999) 63
Comparative analysis
Seagrass biomass and production: a reassessment 65 (1999) 159
Compensatory growth
Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399
Competition
Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305
Continuous growth
High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111
Convective gas flow
Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291
Copper
Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction 63 (1999) 1
Cotton tensile strength loss
Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381
Currents
Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269
Cuticular waxes
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291
D, darkness
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19
Daily carbon balance
Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335
Danube Delta
Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291
Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Dark respiration

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

Decomposition

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221

Density

Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47

Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239

Depth

Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145

Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281

Development

In situ survival and development of *Posidonia oceanica* (L.) Delile seedlings 63 (1999) 103

Di-and tricarboxylic acids

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Dice similarity metric

Integration of five Southeast Asian accessions into the world-wide phenetic relationships of *Hydrilla verticillata* as elucidated by random amplified polymorphic DNA analysis 63 (1999) 161

Die-back

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats 64 (1999) 35

Dissolved amino acids

Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

Dissolved carbohydrates

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

Distribution

Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33

Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239

On the status of seagrass communities in the Black Sea 65 (1999) 21

Disturbance

Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261

Duckweed

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Ecology

Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33

Ecotypes

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

Eelgrass

A rapid and simple method for transplanting eelgrass using single, unanchored shoots 64 (1999) 77

The effects of global climate change on seagrasses 63 (1999) 169

Egeria densa

Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305

Elodea canadensis

Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305

Enhalus acoroides

Nutrient limitation of the tropical seagrass *Enhalus acoroides* (L.) Royle in Cape Bolinao, NW Philippines 65 (1999) 123

Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds 65 (1999) 321

Environmental gradients

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

Environmental stress

Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Epibiotic ciliates

Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239

Epifauna

Mobile epifauna inhabiting the invasive *Sargassum muticum* and two local seaweeds in northern Spain 64 (1999) 131

Estuaries

Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281

Estuary

Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359

Eutrophication

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Evaporation

The ratio of transpiration versus evaporation in a reed belt as influenced by weather conditions 63 (1999) 113

Extreme altitude

Carbohydrate storage in rhizomes of *Phragmites australis*: the effects of altitude and rhizome age 64 (1999) 105

Fd-GOGAT, ferredoxin-dependent glutamate synthase

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Flour and Starch

Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds 65 (1999) 321

Flowering

Flowering, fruiting and seedling of *Halophila beccarii* Aschers. (Hydrocharitaceae) from Malaysia 65 (1999) 199

Fluorescence

Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359

Frequency

Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239

Fruiting

Flowering, fruiting and seedling of *Halophila beccarii* Aschers. (Hydrocharitaceae) from Malaysia 65 (1999) 199

Functional response

The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11

Gall maker

Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399

Gas exchange

Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* 64 (1999) 63

Genetic diversity

The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats 64 (1999) 35

Genetic similarity

Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209

Genetic variation

Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261

Genotypic variation

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

Geographical distribution

Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47

Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7

Global change

Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* 64 (1999) 63

Global warming

The effects of global climate change on seagrasses 63 (1999) 169

Grazing

The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11

Greenhouse effect

The effects of global climate change on seagrasses 63 (1999) 169

Growth regulators
In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197
Growth
Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359
Response of six *Azolla* species to transient high-temperature stress 64 (1999) 87
GS, glutamine synthetase
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19
Halodule pinifolia
Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33
Halodule uninervis
Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33
Halodule wrightii
Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47
Halodule
Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105
Halophila beccarii
Flowering, fruiting and seedling of *Halophila beccarii* Aschers. (Hydrocharitaceae) from Malaysia 65 (1999) 199
Halophila ovalis
Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219
Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1
Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71
Photosynthetic response of *Halophila ovalis* (R. Br.) Hook. *f.* to combined environmental stress 65 (1999) 83
Halophila
Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105
Helophytes
Responses of ecotypes of *Phragmites australis* to increased seawater influence: a field study in the Danube Delta, Romania 64 (1999) 351
Heterostyly
Maternal and paternal success among flower morphs in tristylous *Lythrum salicaria* 63 (1999) 229
Human activities
Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311
Hydrilla verticillata
Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305
Hydrilla
Integration of five Southeast Asian accessions into the world-wide phenetic relationships of *Hydrilla verticillata* as elucidated by random amplified polymorphic DNA analysis 63 (1999) 161
Hydrodynamics
Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* banks ex König seedlings 63 (1999) 95
Hypoxia
Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291
Image processing
Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311
In situ net photosynthesis
Photosynthesis and stomatal conductance of *Juncus effusus* in a temperate wetland ecosystem 63 (1999) 127
Incompatibility
Maternal and paternal success among flower morphs in tristylous *Lythrum salicaria* 63 (1999) 229
Indonesia
Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71
Inorganic carbon
Photosynthetic responses in *Zostera marina* to decreasing salinity, inorganic carbon content and osmolality 65 (1999) 97
Invasion
Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261
Mobile epifauna inhabiting the invasive *Sargassum muticum* and two local seaweeds in northern Spain 64 (1999) 131
Irradiance
Annual life cycles of two *Zostera marina* L. populations in the Gulf of California: contrasts in seasonality and reproductive effort 65 (1999) 59

Isozymes
Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241
Juncus bulbosus
The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment 64 (1999) 95
Kenya
Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221
Lacunae
Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219
Lagarosiphon major
Competitive performance of *Hydrilla verticillata* in New Zealand 63 (1999) 305
Laguncularia racemosa
Rooting and vegetative propagation in *Laguncularia racemosa* 63 (1999) 83
Landscape
Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293
Lateral growth
Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293
Leaf growth
Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175
Leaf lifespan
Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141
Legitimate and illegitimate pollination
Maternal and paternal success among flower morphs in tristylous *Lythrum salicaria* 63 (1999) 229
Lemnaceae
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19
Life-history
Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185
Light deprivation
Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105
Light limitation
Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71
Light
Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281
Liming
The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment 64 (1999) 95
Limiting nutrients
Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267
Litter
Effects of sediment type and water level on biomass production of wetland plant species 64 (1999) 151
Litterfall
Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291
Littoral communities
Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267
Littoral sediment
Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description 64 (1999) 235
Littoral vegetation
Effects of sediment type and water level on biomass production of wetland plant species 64 (1999) 151
Littorina littorea
The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11
Localization
Localization of copper accumulated in *Rhynchostegium riparioides* using sequential chemical extraction 63 (1999) 1
Lowland
Carbohydrate storage in rhizomes of *Phragmites australis*: the effects of altitude and rhizome age 64 (1999) 105
Macrophyte
Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145

The effects of global climate change on seagrasses 63 (1999) 169

Malaysia

Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33

Management

Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281

Mangrove

Rooting and vegetative propagation in *Laguncularia racemosa* 63 (1999) 83

Marsh reed

Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241

Mass allocation

Nutrient and mass allocation of South-east Asian seagrasses 63 (1999) 203

Maximum production

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Mediterranean climate

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

Mediterranean sea

In situ survival and development of *Posidonia oceanica* (L.) Delile seedlings 63 (1999) 103

Mediterranean

Seasonal dynamics in mixed eelgrass beds, *Zostera marina* L. and *Z. noltii* Hornem., in a Mediterranean coastal lagoon (Thau lagoon, France) 63 (1999) 51

Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311

Mesograzers

Mobile epifauna inhabiting the invasive *Sargassum muticum* and two local seaweeds in northern Spain 64 (1999) 131

Micropropagation

In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197

Monocarboxylic acids

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Monophagy

Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399

Morphological variant

Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33

Morphology

Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1

Mortality

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1

N limitation

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

N:P ratio

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

NADH-GOGAT, NADH-dependent glutamate synthase

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Neighbor-joining

Integration of five Southeast Asian accessions into the world-wide phenetic relationships of *Hydrilla verticillata* as elucidated by random amplified polymorphic DNA analysis 63 (1999) 161

Nemoral climate

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

NiR, nitrite reductase

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Nitrate uptake

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Nitrogen assimilation

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Nitrogen use efficiency

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Nitrogen

Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267

Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141

NR, nitrate reductase

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Nutrient allocation

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Nutrient and mass allocation of South-east Asian seagrasses 63 (1999) 203

Nutrient cycle

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

Nutrient limitation

Nutrient limitation of the tropical seagrass *Enhalus acoroides* (L.) Royle in Cape Bolinao, NW Philippines 65 (1999) 123

Nutrient resorption

Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141

Nutrient retention

Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141

Nutrients

Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381

Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167

Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* banks ex König seedlings 63 (1999) 95

Organic matter

Effects of sediment type and water level on biomass production of wetland plant species 64 (1999) 151

Oxygen exchange

Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71

PCR-fingerprinting

Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209

Periphyton

Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167

Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267

The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11

Phenological phases

Annual life cycles of two *Zostera marina* L. populations in the Gulf of California: contrasts in seasonality and reproductive effort 65 (1999) 59

Phosphorus

Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267

Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141

Photosynthesis

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

Plant growth and photosynthesis in the transition zone between land and stream 63 (1999) 23

Photosynthetic responses in *Zostera marina* to decreasing salinity, inorganic carbon content and osmolality 65 (1999) 97

Phragmites recolonisation

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Phragmites australis

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209

Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291

Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description 64 (1999) 235

Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247

Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

Expansion of *Phragmites australis* into tidal wetlands of North America 64 (1999) 261

Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359

Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Responses of ecotypes of *Phragmites australis* to increased seawater influence: a field study in the Danube Delta, Romania 64 (1999) 351

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

The ratio of transpiration versus evaporation in a reed belt as influenced by weather conditions 63 (1999) 113

Physico-chemistry

Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381

Plant damage

Insects on common reed (*Phragmites australis*): community structure and the impact of herbivory on shoot growth 64 (1999) 399

Plant growth

Plant growth and photosynthesis in the transition zone between land and stream 63 (1999) 23

Plant morphology

Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Plant production

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Plant tissue culture

In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197

Ploidy levels

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

Poaceae

Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241

Population dynamics

Seasonal dynamics in mixed eelgrass beds, *Zostera marina* L. and *Z. noltii* Hornem., in a Mediterranean coastal lagoon (Thau lagoon, France) 63 (1999) 51

Population genetics

Isozyme variation among populations of the clonal species, *Phragmites australis* (Cav.) Trin. ex Steudel 63 (1999) 241

Mangroves of the United Arab Emirates: ecotypic diversity in cuticular waxes at the bioclimatic extreme 63 (1999) 291

Porewater

Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* banks ex König seedlings 63 (1999) 95

Posidonia coriacea

Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293

Posidonia oceanica

An approach to measurement of particle flux and sediment retention within seagrass (*Posidonia oceanica*) meadows 65 (1999) 255

Posidonia oceanica

In situ survival and development of *Posidonia oceanica* (L.) Delile seedlings 63 (1999) 103

Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311

Production

Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221

Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71

Proximate analysis

Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds 65 (1999) 321

Pulsed turbidity

Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105

Purple loosestrife

Maternal and paternal success among flower morphs in tristylous *Lythrum salicaria* 63 (1999) 229

Radial O_2 loss

Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219

Ramet size

Nutrient and mass allocation of South-east Asian seagrasses 63 (1999) 203

Random amplified polymorphic DNA (RAPD)

Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209

RAPD

Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description 64 (1999) 235

Integration of five Southeast Asian accessions into the world-wide phenetic relationships of *Hydrilla verticillata* as elucidated by random amplified polymorphic DNA analysis 63 (1999) 161

Reacidification

The effects of liming and reacidification on the growth of *Juncus bulbosus*: a mesocosm experiment 64 (1999) 95

Redox potential

Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175

Reduced soil conditions

The effects of litter on growth and plasticity of *Phragmites australis* clones originating from infertile, fertile or eutrophicated habitats 64 (1999) 35

Reed decline

Organic acids in the sediments of wetlands dominated by *Phragmites australis*: evidence of phytotoxic concentrations 64 (1999) 303

Reed population

Analysis of genetic diversity among selected populations of *Phragmites australis* world-wide 64 (1999) 209

Clone specific differences in a *Phragmites australis* stand I. Morphology, genetics and site description 64 (1999) 235

Reed

Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381

Relative growth rate

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Reproduction

Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning 65 (1999) 209

Research effort

Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7

Restoration

A rapid and simple method for transplanting eelgrass using single, unanchored shoots 64 (1999) 77

Resuspension model

An approach to measurement of particle flux and sediment retention within seagrass (*Posidonia oceanica*) meadows 65 (1999) 255

Resuspension

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269

RGR

Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145

Root respiration

Interactive effects of N and P on growth, nutrient allocation and NH_4*Phragmites australis* 64 (1999) 369

Root senescence

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Rooting

Rooting and vegetative propagation in *Laguncularia racemosa* 63 (1999) 83

Roots

Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219

Salinity tolerance

Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1

Salinity

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Effect of climate on the salt tolerance of two *Phragmites australis* populationsII. Diurnal CO_2 64 (1999) 335

Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359

Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Responses of ecotypes of *Phragmites australis* to increased seawater influence: a field study in the Danube Delta, Romania 64 (1999) 351

Photosynthetic responses in *Zostera marina* to decreasing salinity, inorganic carbon content and osmolality 65 (1999) 97

Salt stress

Biometric variation in *Phragmites australis* affecting convective ventilation and amino acid metabolism 64 (1999) 291

Sargassum muticum

Mobile epifauna inhabiting the invasive *Sargassum muticum* and two local seaweeds in northern Spain 64 (1999) 131

SAV

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269

SE Asia

Nutrient limitation of the tropical seagrass *Enhalus acoroides* (L.) Royle in Cape Bolinao, NW Philippines 65 (1999) 123

Sea level rise

The effects of global climate change on seagrasses 63 (1999) 169

Seagrass growth

Nutrient limitation of the tropical seagrass *Enhalus acoroides* (L.) Royle in Cape Bolinao, NW Philippines 65 (1999) 123

Seagrass restoration

Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration 64 (1999) 51

Seagrass seed

Proximate analysis of the flour and starch from *Enhalus acoroides* (L.f.) Royle seeds 65 (1999) 321

Seagrass

Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* banks ex König seedlings 63 (1999) 95

Radial oxygen loss from intact roots of *Halophila ovalis* as a function of distance behind the root tip and shoot illumination 63 (1999) 219

Seasonal dynamics in mixed eelgrass beds, *Zostera marina* L. and *Z. noltii* Hornem., in a Mediterranean coastal lagoon (Thau lagoon, France) 63 (1999) 51

Structural response of marine and estuarine plants of *Halophila ovalis* (R. Br.) Hook. f. to long-term hyposalinity 64 (1999) 1

The effects of global climate change on seagrasses 63 (1999) 169

Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221

Landscape-scale changes in seagrass distribution over time: a case study from Success Bank, Western Australia 65 (1999) 293

Photosynthetic response of *Halophila ovalis* (R. Br.) Hook. *f.* to combined environmental stress 65 (1999) 83

Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71

Seagrass biomass and production: a reassessment 65 (1999) 159

Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7

Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105

Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281

Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König 63 (1999) 261

Nutrient and mass allocation of South-east Asian seagrasses 63 (1999) 203

Halodule species from Malaysia — distribution and morphological variation 65 (1999) 33

Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175

Flowering, fruiting and seedling of *Halophila beccarii* Aschers. (Hydrocharitaceae) from Malaysia 65 (1999) 199

Leaf nutrient resorption, leaf lifespan and the retention of nutrients in seagrass systems 65 (1999) 141

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269

Seasonality

Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221

Sediment anoxia

Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175

Sediment redox potential

Methanogenesis and methane emissions: effects of water table, substrate type and presence of *Phragmites australis* 64 (1999) 63

Sediment

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269

Sedimentation

An approach to measurement of particle flux and sediment retention within seagrass (*Posidonia oceanica*) meadows 65 (1999) 255

Primary production of deep-water *Halophila ovalis* meadows 65 (1999) 71

Seed germination

Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration 64 (1999) 51

Seed production

Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning 65 (1999) 209

Seed protection

Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration 64 (1999) 51

Seedling submergence

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Seedling

In situ survival and development of *Posidonia oceanica* (L.) Delile seedlings 63 (1999) 103

Flowering, fruiting and seedling of *Halophila beccarii* Aschers. (Hydrocharitaceae) from Malaysia 65 (1999) 199

Selectivity

The susceptibility of benthic microalgae to periwinkle (*Littorina littorea*, Gastropoda) grazing in laboratory experiments 63 (1999) 11

Shade

Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167

Shallow and deep populations

Annual life cycles of two *Zostera marina* L. populations in the Gulf of California: contrasts in seasonality and reproductive effort 65 (1999) 59

Shoot biomass

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Shoot culture

In vitro propagation of *Cryptocoryne wendtii* 63 (1999) 197

Shoot cuttings

Rooting and vegetative propagation in *Laguncularia racemosa* 63 (1999) 83

Shoot density

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Shoot mortality

Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175

Shoot senescence

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Shoot size distribution

Distribution, seasonal abundance and shoot size of the seagrass *Halodule wrightii* near its southern limit at Rio de Janeiro state, Brazil 65 (1999) 47

Side scan sonar

Environmental impact identification along the Corsican coast (Mediterranean sea) using image processing 65 (1999) 311

Size-dependence

Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning 65 (1999) 209

Soil reduction

Controls on soil cellulose decomposition along a salinity gradient in a *Phragmites australis* wetland in Denmark 64 (1999) 381

Somatic mutations

Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis* 64 (1999) 185

South Africa
Growth and photosynthetic performance of *Phragmites australis* in estuarine waters: a field and experimental evaluation 64 (1999) 359
South-east Asia
Nutrient and mass allocation of South-east Asian seagrasses 63 (1999) 203
Species coverage
Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7
Species diversity
Effects of sediment type and water level on biomass production of wetland plant species 64 (1999) 151
Species richness
Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239
Stomatal conductance
Photosynthesis and stomatal conductance of *Juncus effusus* in a temperate wetland ecosystem 63 (1999) 127
Storage carbohydrates
Carbohydrate storage in rhizomes of *Phragmites australis*: the effects of altitude and rhizome age 64 (1999) 105
Strategy
Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145
Stream
Effects of shade and nutrient manipulation on periphyton growth in a subtropical stream 64 (1999) 167
Subtropical lakes
Littoral periphyton responses to nitrogen and phosphorus an experimental study in a subtropical lake 63 (1999) 267
Sulfide
Preliminary evidence on the interdependent effect of currents and porewater geochemistry on *Thalassia testudinum* banks ex König seedlings 63 (1999) 95
Are seagrass growth and survival constrained by the reducing conditions of the sediment? 65 (1999) 175
Survival
In situ survival and development of *Posidonia oceanica* (L.) Delile seedlings 63 (1999) 103
Response of six *Azolla* species to transient high-temperature stress 64 (1999) 87
Seagrass survival during pulsed turbidity events: the effects of light deprivation on the seagrasses *Halodule pinifolia* and *Halophila ovalis* 65 (1999) 105
***T.* testudinum**
Epibiotic Protozoa (Ciliophora) on a community of *Thalassia testudinum* Banks ex König in a coral reef in Veracruz, Mexico 65 (1999) 239
Thalassia testudinum
Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König 63 (1999) 261

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269
Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221
Tolerance to high-temperature stress
Response of six *Azolla* species to transient high-temperature stress 64 (1999) 87
Topics
Seagrass ecology at the turn of the millennium: challenges for the new century 65 (1999) 7
Transects
Sensitivity of transects across a depth gradient for measuring changes in aerial coverage and abundance of *Ruppia megacarpa* Mason 65 (1999) 281
Translocation type
Clone specific differences in a *Phragmites australis* standII. Seasonal development of morphological and physiological characteristics at the natural site and after transplantation 64 (1999) 247
Transpiration
The ratio of transpiration versus evaporation in a reed belt as influenced by weather conditions 63 (1999) 113
Transplantation
A rapid and simple method for transplanting eelgrass using single, unanchored shoots 64 (1999) 77
Tuber
Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145
Turion
Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Ultraviolet radiation

The occurrence of UV-B absorbing mycosporine-like amino acids in freshwater and terrestrial microalgae (Chlorophyta) 63 (1999) 37

UPGMA

Integration of five Southeast Asian accessions into the world-wide phenetic relationships of *Hydrilla verticillata* as elucidated by random amplified polymorphic DNA analysis 63 (1999) 161

UV radiation

The effects of global climate change on seagrasses 63 (1999) 169

UV-B absorbing compound

The occurrence of UV-B absorbing mycosporine-like amino acids in freshwater and terrestrial microalgae (Chlorophyta) 63 (1999) 37

UV-B sensitivity

The occurrence of UV-B absorbing mycosporine-like amino acids in freshwater and terrestrial microalgae (Chlorophyta) 63 (1999) 37

VAM

Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König 63 (1999) 261

Vegetative propagation

Rooting and vegetative propagation in *Lagunculuria racemosa* 63 (1999) 83

Vesicular–arbuscular mycorrhiza

Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König 63 (1999) 261

W, white light

Influence of UVB irradiation on nitrate and ammonium assimilating enzymes in *Spirodela polyrhiza* 64 (1999) 19

Water balance

The ratio of transpiration versus evaporation in a reed belt as influenced by weather conditions 63 (1999) 113

Water content

Effect of climate on the salt tolerance of two *Phragmites australis* populations I.Growth, inorganic solutes, nitrogen relations and osmoregulation 64 (1999) 317

Water depth

Phenotypic differences among ploidy levels of *Phragmites australis* growing in Romania 64 (1999) 223

Water regime

Growth and resource allocation in response to flooding in the emergent sedge *Bolboschoenus medianus* 63 (1999) 145

Water temperature

Annual life cycles of two *Zostera marina* L. populations in the Gulf of California: contrasts in seasonality and reproductive effort 65 (1999) 59

Water-table

Phragmites australis: effects of shoot submergence on seedling growth and survival and radial oxygen loss from roots 64 (1999) 275

Waves

Sediment resuspension in a shallow *Thalassia testudinum* banks ex König bed 65 (1999) 269

Wetland

High production in a herbaceous perennial plant achieved by continuous growth and synchronized population dynamics 64 (1999) 111

Photosynthesis and stomatal conductance of *Juncus effusus* in a temperate wetland ecosystem 63 (1999) 127

Wrack

Accumulation of seagrass beach cast along the Kenyan coast: a quantitative assessment 65 (1999) 221

Z. noltii

Seasonal dynamics in mixed eelgrass beds, *Zostera marina* L. and *Z. noltii* Hornem., in a Mediterranean coastal lagoon (Thau lagoon, France) 63 (1999) 51

Zonation

Effects of sediment type and water level on biomass production of wetland plant species 64 (1999) 151

Zostera marina

Eelgrass (*Zostera marina* L.) seed protection for field experiments and implications for large-scale restoration 64 (1999) 51

Photosynthetic responses in *Zostera marina* to decreasing salinity, inorganic carbon content and osmolality 65 (1999) 97

A rapid and simple method for transplanting eelgrass using single, unanchored shoots 64 (1999) 77

Apparent lack of vesicular–arbuscular mycorrhiza (VAM) in the seagrasses *Zostera marina* L. and *Thalassia testudinum* Banks ex König 63 (1999) 261

Seasonal dynamics in mixed eelgrass beds, *Zostera marina* L. and *Z. noltii* Hornem., in a Mediterranean coastal lagoon (Thau lagoon, France) 63 (1999) 51

Reproduction in Danish eelgrass (*Zostera marina* L.) stands: size-dependence and biomass partitioning 65 (1999) 209
